

candy factory

*Have
a Sweet Day*

Who we are

"Evrokeks" is a family company founded in 1988. Initially the company was created as a retail store for chocolates and candies. In 1990, "Evrokeks" started operating in the manufacturing sector, creating the first hard candy product under the name "MENTA" which is still our strongest brand.

Our goal during all these years has been and is, to create more diverse range of products. So for now, in our sweet family you can meet and taste:

"TOFFEE" – our caramels loved by all generations,
"YATMA" - our traditional soft candies,
"NERKO" – the hard candy for clear throat,
"MENTHOL EUCALYPTUS" - the refreshing candy,
"BONBON" - fruit mix candy,
"MATINEE" – the best sweet dessert.

The products we produce are made with lots of love, care and passion.

Our staff has long experience in this industry, which guarantees a truly high professionalism.

We believe that the most important part of the production process is the quality of the products. That is why using the best quality materials in combination with state-of-the-art technology makes our products irresistibly delicious. All members of our company share the same excitement about the production process - from the initial idea, the development process, the packaging of the products, to the end result where the greatest pleasure for us are the satisfied and delighted faces of the consumers after experiencing the taste on our product!

Evrokeks is flexible company and open to innovation, while striving to meet the needs of our customers. We are also open to developing products that will meet the specific requirements of consumers in different countries - we will develop the right flavors, different packaging, style, labels, taste and so on, just for our customers, anywhere in the world, to be satisfied and happy with our products.

In this journey we have chosen to be guided by the satisfaction and trust of our customers, so our goal and motto is HAVE A SWEET DAY!
